MEIRA & EMPEROR IR BREAKFAST

MEIRA and Emperor are organising an IR Breakfast on **25 May** for the UAE MEIRA members. During the session, we will have the opportunity to hear from Steve Kemp, CEO at Emperor, on the latest trends in corporate reporting.

From the increasing expectations of stakeholders around climate action and social issues, new policies and regulation on technology and low carbon economies, to the growing threat of international war, supply chain shortages and rising inflation. No brand or sector is immune. The route to net zero is arguably the most pressing concern we collectively face and sustainability commitments are now an expectation, not a differentiator. This is reflected in the significant developments we've seen over the past 18 months to develop a comprehensive corporate reporting system that puts financial and sustainability disclosure on an equal footing.

The event is open to IR practitioners.
