## MEIRA Updates

### Notes from the GM

MEIRA greetings, it's that seasonal time of the year to reflect, break and start

Accordingly, we are delighted to share a new Member logo for you as part of MEIRA's upcoming anniversary celebrations - MEIRA turns a big 15 in 2023! Recalling what it is like to be a feisty teenager - remember that - we should also remember it is a question of reaching a level of, if not full, maturity as a go-to professional body. I think we would all agree that, inevitably, it takes

time in line with our own market development. We have so much to look forward to, MEIRA!

All our efforts should support a continued role of playing a vital part in capital market development. Everything we do should promote the MEIRA purpose of championing best practice IR because that's what we know and do best. At the same time, we would do well to remind ourselves what we stand for at MEIRA:

- Good governance or doing the right thing with all the supporting systems, processes and people in place;
- Meritocracy - everyone should be in a position to participate and stand a chance of meaningfully aspiring to their own goals, as well as support MEIRA;
- Transparency - if we can't say this and do this in leading by example, while being held to the highest standards, then what is the point of it all?

Let's think about it, what we wish for and expect of MEIRA, your professional body for IR.

We very much look forward to doing more with you in the new year. In the meantime, do take a welcome and deserved break - we all need this - and let's reconvene in 2023 and do this, MEIRA, happy 15th, here we come!

Best wishes,

Team MEIRA
